2. PROJECT OVERVIEW

This project is a complete, custom-built **Manpower Hiring & Employee Management System** tailored for recruitment agencies, staffing firms, contractors, and manpower providers.

The system empowers administrators to manage employees digitally, generate offer letters in bulk with single-click actions, automatically issue login credentials, and provide workers with a secure self-service portal to manage their profile and download official employment documents.

In addition to the central management system, this package includes a fully responsive company web portal and a integrated **Android Web View Mobile App**.

3. WEBSITE STRUCTURE & PAGES

The frontend public website will feature a modern, responsive layout designed to represent

your organization effectively:

1. **Home Page** – Interactive banner slider, highlights, quick links, and services preview
2. **About Us** – Company mission, vision, background, and value proposition
3. **Services** – Detailed overview of manpower & staffing solutions offered
4. **Gallery** – Visual showcase of team, operations, and corporate events
5. **Contact Us** – Direct contact details, inquiry form, and interactive map
6. **Career / Apply** – Job opening listings and online application portal
7. **Privacy Policy & Terms** – Legal compliance and usage terms
8. **Employee Login Portal** – Dedicated secure access point for staff
9. **Admin Login Portal** – Secure portal for platform administrators
10. **Inquiry Form & Footer** – Quick contact popups and linked social media profiles
